

EMPLOYEE CARE

The Lexington Medical Center Foundation ensures that hospital employees are taken care of emotionally, mentally and financially during times of hardship.

• EMERGENCY CARE FUND •

For more than 20 years, the Lexington Medical Center Foundation's Emergency Care Fund has supported employees facing financial hardships due to unexpected crises or events in their lives.

• POST TRAUMA RESOURCES •

With funding from the Employee Care Fund, the Foundation has partnered with Post Trauma Resources and provides its FLOW Program to all Lexington Medical Center employees. This program guarantees confidential, no-cost counseling services.

• SERENITY COVES •

Provided by the Foundation, two Serenity Coves on the hospital's main campus serve as places of respite for employees. Employees can recharge in these relaxing, quiet environments and are provided with educational materials to enhance their mental well-being.
